

## What needs to be securely shredded?

Information breaches are costing businesses millions.

**IBM reported that the average total cost of a data breach in 2022 was \$4.35m.**

It is therefore essential to securely shred confidential information. But it's not always clear which items should be securely destroyed.

### Types of confidential information to shred

#### Secure papers:

- ✓ Financial records
- ✓ Customer data records
- ✓ Legal documents
- ✓ Employee files
- ✓ Proprietary information
- ✓ Intellectual property

#### Media:

- ✓ Hard drives
- ✓ Optical media
- ✓ USB drives

#### Cards:

- ✓ ID cards
- ✓ Employee ID badges

- ✓ Key cards
- ✓ Financial

#### Branded Uniforms

## The shredding process

Shred-it applies the same proven chain of custody protocols and leading shredding technologies for our document, hard drive, and speciality services. This ensures safe, secure destruction of your confidential items, with:
